---

## EDUCATION

**Micheal Okpara University, Umuahia Abia** - *Computer Science* | Bsc

OCTOBER 2018 - PRESENT

## PROJECTS

### **Ticketing App**

An efficient ticket management system that empowers users to effortlessly create, update, and organize task tickets, simplifying task tracking and management

### **E-commerce App**

A dynamic e-commerce platform built with React, leveraging styled components for an intuitive and visually appealing design. The integration of React Router enables seamless navigation and interaction with the backend Node.js server, allowing for efficient consumption of APIs

### **A Blood Bank App**

A blood bank web application that connects donors with hospitals, facilitating blood donations and ensuring a constant supply of life-saving blood.

### **Portfolio Site**

A showcase of my skills and expertise to impress potential recruiters and open doors to exciting opportunities in the market industry

### **Online BootCamp**

A comprehensive website built with Express and Handlebars templating engine to provide an interactive platform for a coding bootcamp. The website incorporates dynamic page content and routes, allowing users to navigate through different sections of the site easily. With a user-friendly interface and seamless integration of templating engine, it offers an immersive experience for boot camp participants

## SOFT SKILLS

- Adaptability and able to Work Collaboratively
- Willing learner and attentive to details
- Reading and Communicate Effectively
- Athletic (an active Volleyball Player)
